MICRONEEDLE THERAPY SYSTEM

(877) 566-9687

Vx Peptide Face Lift Mask (New Collagen Renewal System)

Product Components:

5 Vx Peptide Activators - (0.15 fl.oz / Net wt. 4.7 ml)
5 Vx Peptide Powders - (0.25 fl.oz / Net wt. 4.2 g)

Key Features:

- Provides an instant lifting and skin brightening effect
- Stimulates cellular regeneration and blood circulation
- Helps boost collagen and elastin production
- Provides deep hydration
- Oxygenates skin cells
- Purifies pores
- Good for all skin types

Vx Peptide Face Lift Mask is compounded with high concentrations of active ingredients that help boost collagen and elastin production, stimulate cellular regeneration, oxygenate skin cells, inhibit production of free radicals, stimulate blood circulation, and most importantly, work deep inside the skin to make expression lines less noticeable. In addition, it is specially formulated to purify pores, and to moisturize the skin, while instantly lifting and brightening.

Working Mechanism: The mixture of the powder and activator creates a mask that tightens and tones sub-dermal muscles by increasing blood circulation. As blood circulation increases, a subtle pulsation of the skin takes place as a direct result of facial muscle contraction. The skin's elastic properties allow it to tightly fit to newly toned muscles, which delivers an instant lifting effect, while providing a significant reduction in the appearance of fine lines and wrinkles.

Ingredients for Activator: Water, PVP, Glycerin, Acacia Senegal Gum, Aloe Barbadensis Leaf Juice, Hamamelis Virginiana (Witch Hazel) Leaf Extract, Collagen, Elastin, Acetyl Hexapeptide-8, Cucumis Sativus (Cucumber) Fruit Extract, Chamomilla Recutita (Matricaria) Flower Extract, Hyaluronic Acid, Sodium Dextran Sulfate, Proline, Lysine, Carnitine, Arginine, Phenylalanine, Histidine, Tyrosine, Glycine, Sodium Ascorbyl Phosphate, Saccharomyces/Copper Ferment, Adenosine, Potassium Sorbate

Ingredients for Powder: Albumen, Hydroxy Propyl Methyl Cellulose, Chitosan, Kelp Extract, Avena Sativa (Oat) Kernel Flour, Silk Powder, Collagen, Corn Starch, Proline, Lysine, Glycine, Vitis Vinifera (Grape) Seed Extract

Directions:

1. Cleanse face and neck thoroughly.
2. Place one jar of powder into a small mixing bowl and gradually add one vial of activator. Stir until the mixture (mask) is smooth and thick. Using a small brush or fingertips, apply the mask, using upward strokes, starting from the lower part of the neck. Use caution and avoid getting the mask into the eyes.
3. Avoid making any facial movements while the mask is on the face. A slight contraction of facial muscles pulling, pulsating, and tingling is normal. After a few minutes, when the mask has started to dry, but is still slightly sticky, you may apply an additional coat, especially to those areas needing greater attention. Allow the mask to remain on the face for 15 to 20 minutes (no longer than 30 minutes is recommended).
4. After the mask completely dries, remove by rinsing repeatedly with warm water, or by placing a steamed towel over the face for 2-3 minutes or until the mask is moistened. Gently wipe away and pat dry. Complete the regimen by applying StemPep Serum and StemPep Moisturizer to entire face and neck area.

Caution: Use only as directed. Do not use on hypersensitive or problematic skin. Discontinue use if irritation or redness develops. For external use only

MICRONEEDLE THERAPY SYSTEM

(877) 566-9687

Ultra Collagen Peptide Activator (Collagen Skin Quencher)
Treat your skin to something exceptional. The Collagen Skin Quencher satisfies your skin's thirst with collagen, which is a natural protein and one of the most important components in beautiful skin. Along with pure and healing aloe, multi-peptides, and apple stem cell extract, it restores resilience and gives your skin a youthful glow, texture, and luminosity, while boosting collagen production.

Ultra Collagen Booster Powder (Pure Marine Collagen Peptide)
This is the finest and most pure marine collagen peptide, produced with the world's leading bio-enzymatic hydrolysis technology. With a molecular weight of less than 2,000 Daltons, its nano-size and weight allows maximum absorption for optimized effects. The common collagen's molecular weight is in the range of 10,000 to 30,000 Daltons, which cannot be directly absorbed by human skin. Smaller molecular size is positively correlated to its absorption rate; Pure Marine Collagen Peptide (2,000 Daltons) delivers 30% more efficacy than any collagen with 3,000 Daltons in its molecular weight.

Additional Features:

Fat and cholesterol free: Contains collagen derived only from fish skin, not fat or cholesterol, and will not affect cholesterol levels in the blood.

Complete amino acid profile: Marine collagen contains 17 types of essential and non-essential amino acids in a balanced ratio. It is rich in glycine, proline, and hydroxyproline, which are the main components of human skin.

High biological absorption rate: Modern biotechnology separates protein into smaller peptides, compared to a single amino acid, to increase penetration. Among all types of protein, the structure and composition of fish protein is the most compatible to the human body, which is able to recognize and absorb it to supplement existing collagen. The absorption rate of this deep sea collagen is as high as 95%-98%. However, it is variable to the individual's body condition.

Pure Collagen Mask (100% Marine Collagen Peptide)

Product Components:

- 5 Ultra Collagen Peptide Activators - (0.3 fl.oz./Net Wt. 4.0 ml)
- 5 Ultra Collagen Booster Powders- (2,000 Daltons/Net Wt. 2.0g)

Key Features:

- Provides maximum hydration
- Stimulates collagen and elastin production
- Helps eliminate skin impurities
- Improves skin elasticity
- Firms and brightens skin
- Helps to reduce pore size
- Improves skin tone and texture

Key Ingredients:

100% Marine Collagen Peptide Herb Extracts (Aloe Vera, etc):
Moisturizes skin, while improving skin texture.

Myristoyl Pentapeptide-8, Myristoyl Pentapeptide-11, Myristoyl Hexapeptide-4: Fibroblast Growth Factor gene stimulation for anti-aging and skin brightening benefits. These peptides show immune stimulation in vitro, by upregulation of primary defensin-B in human dermal keratinocytes. These polypeptides help promote protein stimulation (Collagen I), with minimal irritation and without elevating pro-inflammatory cytokines. They also stimulate Platelet-Derived Growth Factors (PDGF) and Vascular Endothelial Growth Factors (VEGF).

Malus Domestica Fruit Cell Culture Extract (Apple Stem Cell):
Helps boost collagen, while improving overall skin conditions.

Ingredients for Activator: Water, Carbomer, Allantoin, Xanthan Gum, Glycerin, Triethanolamine, Propylene Glycol, Olea Europaea (Olive) Fruit Oil, Tocopherol, Dimethicone, Phenoxyethanol, Hamamelis Virginiana (Witch Hazel) Leaf Extract, Chamomilla Recutita (Matricaria) Flower Extract, Myristoyl Pentapeptide-8, Myristoyl Pentapeptide-11, Myristoyl Hexapeptide-4, Collagen

Ingredients for Powder: 100% Marine Collagen Peptide

Directions:

1. Cleanse face and neck thoroughly.
2. Mix one Powder and one Activator in a mixing bowl.
3. Apply mask evenly on face and neck.
4. Wait 10 to 15 minutes until mask becomes dry. Then, rinse off mask with warm water and follow with daily regimen. Complete the regimen by applying StemPep Serum and StemPep Moisturizer to entire face and neck area.
5. Mask can be used on a daily basis if desired.

Caution: Avoid contact with eyes and mucous membranes. For external use only.

MICRONEEDLE THERAPY SYSTEM

(877) 566-9687

Peptide Aqua Gel Mask

(The Ultimate Solution for Irritated and Stressed Skin)

Key Features:

- Contains 5 sheets/box
- Replenishes moisture to dehydrated skin
- Gently calms and soothes sensitive skin
- Instantly cools to reduce redness and controls inflammation
- Provides occlusive protection for safe recovery of compromised skin
- Minimizes fine lines and wrinkles
- Paraben-free
- Hypoallergenic and non-comedogenic
- Perfect for post-procedure skin recovery
- Good for all skin types

Peptide Aqua Gel Mask is specially designed with an innovative technology called TCD (Transdermal Cosmetic Delivery), which regulates the activation and penetration of key ingredients by means of acclimation; the mask slowly absorbs body heat to release its vital components to the skin. The gel mask, embedded with active ingredients, will gradually thin out when it comes in contact with the skin to deliver optimal hydration, soothing comfort, anti-aging, and skin conditioning benefits. This serves as visible evidence of ingredient absorption.

The solid gel sheets mold perfectly to the skin, without forming air pockets, to provide temporary occlusion and protection for proper skin recovery. Infused with clinically proven ingredients, such as Acetyl Hexapeptide-8, Hydrolyzed Collagen, Plant-Derived Stem Cell Extracts, and Sodium Hyaluronate, which all have exceptional anti-aging benefits, Peptide Aqua Gel Mask is an excellent choice for skin rejuvenation. The combination of Hydro-Cooling Gel Technology and soothing ingredients also provide a pleasantly relaxing experience after microneedling or other ablative clinical treatments.

Application:

- For general skin care.
- Post care after microneedling, mesotherapy, laser, RF, IPL, chemical peels, microdermabrasion, facial injections, sunburns, etc.

Ingredients: Deionized Water, Acetyl Hexapeptide-8, Rhododendron Ferrugineum Leaf Cell Culture Extract, Malus Domestica Fruit Cell Culture Extract, Chamomilla Recutita (Matricaria) Flower Extract, Hydrolyzed Collagen, Disodium EDTA, Glycerin, Portulaca Oleracea Extract, Mannan, Polysorbate 80, Sodium Hyaluronate, Ceratonia Siliqua Gum, Dipotassium Glycyrrhizate, Potassium Hydroxide, Phenoxyethanol

Directions:

1. Cleanse and dry the face thoroughly.
2. Open pouch, remove mask sheets (upper and lower) and discard the outer plastic protective films from both sides of each sheet.
3. Apply the mask and smooth out any air bubbles.
4. Leave on the skin for 10-25 minutes for in-clinic application post-procedure.
5. Leave on the skin for 25-30 minutes for at-home use.
6. Gently remove mask, but do not rinse off. Excess moisture will be absorbed.
7. Refrigerate prior to use for an additional cooling effect.
8. Store in a cool, dry place.

Caution: Avoid contact with eyes and mucous membranes. For external use only.

Cleanse and dry face thoroughly

Open pouch, remove mask from plastic backing and apply to skin

Leave on skin for a minimum of 25-30 minutes

Remove the mask gently. Do not rinse off; excess moisture will be absorbed

MICRONEEDLE THERAPY SYSTEM

(877) 566-9687

Porex Mask

(Organic Pore Reducing / Exfoliating Mask)

(e 30g 1.0 oz NET)

Porex Mask is a pore-reducing and resurfacing treatment that is rich in vitamins, amino acids, and enzymes. Pumpkin, the active organic ingredient known for its antioxidant and exfoliating properties, along with other key ingredients work to gently exfoliate the skin to improve the appearance of fine lines, age spots, freckles, and rough texture. Naturally sourced enzymes found in Porex Mask also help to minimize pore size, while stimulating the production of new and healthy skin cells.

Key Ingredients:

Aloe Vera Gel: A rich mineral that deeply nourishes and hydrates the skin, while also targeting any blemishes and skin damage. It contains exfoliating enzymes that work to remove dead skin cells, which allows the skin to breathe more freely.

Pumpkin Extract: Contains fruit enzymes, vitamins, and antioxidants that help naturally exfoliate dead skin cells and increase cell turnover by locking in moisture to bring a luminous glow to the skin. It also helps fight sun damage and smooth wrinkles and fine lines.

Chamomile Extract: Rich in antioxidants and flavonoids, Chamomile proves to be effective at protecting the skin against free radical damage. It contains anti-inflammatory abilities to help moisturize and soften the skin, while also unclogging pores and soothing blemishes.

Papain (Papaya) Enzymes: A fruit enzyme that helps to exfoliate, moisturize, repair, and whiten the skin.

Matrixyl 3000: Contains messengers for cutaneous restructuring and repair. It activates the neosynthesis for extracellular matrix renewal and cell proliferation, while also lifting and firming the skin.

Sodium Hyaluronate: The most effective humectant for skin healing and regeneration. It provides hydration to the skin without depending on atmospheric moisture.

Iron Oxide: A natural element that is non-toxic, non-irritating, and moisture resistant. One of the admirable qualities of Iron Oxide is that because it is moisture resistant, it provides long-lasting efficacy upon application.

Bromelain (Pineapple) Enzymes: Primarily known for its anti-inflammatory properties; reduces erythema, serves as a light exfoliator, and rebuilds collagen.

Ingredients: Aloe Vera Gel, Pumpkin Extract, Glycerin, Chamomile Extract, Glycosaminoglycans, Bromelain (Pineapple) Enzymes, Papain (Papaya) Enzymes, Lecithin, Guar Gum, Sodium PCA, Yeast Extract, Carrot Oil, Sea Buckthorn Oil, Phenoxyethanol, Sodium Alginate, Seaweed Extract, Matrixyl 3000, Sodium Hyaluronate, Iron Oxide, Citric Acid

Directions: Apply on cleansed skin, avoiding the eye area. Leave on the skin for up to eight minutes (for dry, mature, and sensitive skin), or up to fifteen minutes (for oily and acne-prone skin). Remove with warm water. Use once or twice a week or prior to any in-office treatment.

Caution: Moderate stinging may occur. If skin becomes irritated, wash off immediately with tepid water. Always test the product on a small area before applying on the entire face. Use only as directed. Not to be applied on irritated skin. Do not use on rosacea, open sores, or other skin ailments. Do not use right after chemical peels or any other invasive procedure. Avoid contact with eyes and mucous membranes. For external use only.
